

Figure 1. Survey Evidence

Fig 1a. Does hard work pay off?

Results from the World Values Survey

10 = Hard work generally doesn't bring success—it's more a matter of luck and connections.
1 = In the long run, hard work usually brings a better life.

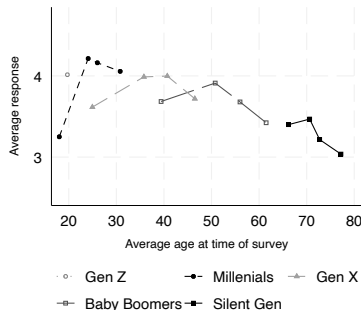

Fig 1c. Should the government reduce inequality?

Results from the General Social Survey

7 = The government ought to reduce the income differences between the rich and the poor, perhaps by raising the taxes of wealthy families or by giving income assistance to the poor.
1 = The government should not concern itself with reducing this income difference.

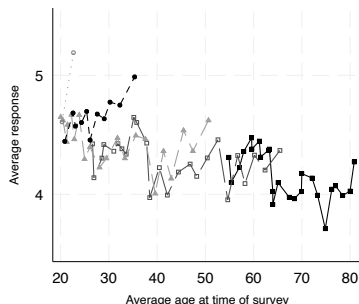

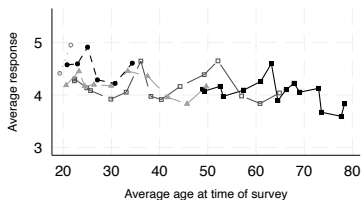

Fig 1b. Public vs. private health insurance

Results from the American National Election Studies

7 = There should be a government insurance plan which covers all medical and hospital expenses.
1 = Medical expenses should be paid by individuals through private insurance.

Gen Z: turned 18 after 2014

Millennials: turned 18 between 1999 and 2014

Gen X: turned 18 between 1983 and 1998

Baby Boomers: turned 18 between 1964 and 1982

Silent Generation: turned 18 between 1946 and 1963

Fig 1d. Should the government guarantee jobs?

Results from the American National Election Studies

7 = The government in Washington ought to see to it that everybody has a job and a good standard of living.
1 = The government should just let each person get ahead on his own.
